

**EXPOSOLIDOS, International Exhibition of Technology for the processing of Solids will celebrate its sixth edition in November 2012 at the venue *La Farga de L'Hospitalet de Llobregat* (Barcelona).**

EXPOSOLIDOS, Exhibition of Technology for the Processing Solids and bulk materials ([www.exposolidos.com](http://www.exposolidos.com)) will celebrate its sixth edition the next 13<sup>th</sup>, 14<sup>th</sup> and 15<sup>th</sup> November 2012 at *La Farga de L'Hospitalet de Llobregat* (Barcelona), host of the event from its first edition. It is an exclusive trade fair for professionals seeking solutions to their technology needs related to the solids.

EXPOSOLIDOS 2012 will bring together over 120 exhibitors from over 20 countries. They present the latest developments in equipment, systems, services and auxiliary products to provide the best technological response to industrial needs regarding the handling and solids processing. For this edition will be added the semi-solids processing and the liquid-solid separation technology. In that sense, the fair is aimed exclusively at professionals from a wide range of industrial sectors: food processing, metallurgy, agriculture, chemical, pharmaceutical, shipping, mining, construction, cosmetics, plastic, paintings, ports, glass, paper, environment and pollution, among others. Mainly from Spain, Latin-America, Portugal, France and Magrib.

EXPOSOLIDOS 2012 has formed an organizing committee of leading companies in the sector of solids. Its president, Mr. Manel Ros of Metallurgica Ros, says that EXPOSOLIDOS has become the second European exhibition industry and a mandatory event for professionals who want to learn about technological advances related to technology and processing of solids as neumatical as mechanical, to the elements to prevent abrasion in pipes and process hoppers, through instrumentation, safety and ATEX and other systems and services related to processing plants in the various sectors of industries, covering all sectors related with solids.

As part of EXPOSOLIDOS 2012 will be organized technical seminars aimed at informing professionals who visit the event on the latest developments and changes in safety regulations and environment. Also, with the goal of being a business center, also will be scheduled product presentations and workshops.
