

EXPOSOLIDOS 2012 offer has expanded and reaches agreements with the main internet portals specialized worldwide.

EXPOSOLIDOS 2012, sixth edition of the Technology and Processing of Solids exhibition (www.exposolidos.com), which will be held next 13th , 14th and 15th November 2012 at *La Farga de L'Hospitalet de Llobregat* (Barcelona). The Organizing Committee of EXPOSOLIDOS decided at its last meeting to extend the exhibition offer to technology aimed at the semi-solid and solid liquid separation equipment because these are complementary and closely linked to the solids. With this expansion of the product range shown is seeking a comprehensive response to the needs of visitors to the event.

In its goal to internationalize the event organizer of EXPOSOLIDOS 2012, PROFEI SL, has reached agreements with major Internet portals specializing in technology for solid, semi solid and solid liquid separation from Europe, USA and Australia. With these agreements the international image of EXPOSOLIDOS consolidates. These agreements have led to undertake a new website that has two objectives: first, provide detailed information on everything related to EXPOSOLIDOS and, secondly, be informative reference sector, publishing timely news related to all companies.

The Organizing Committee of 2012 decided to EXPOSOLIDOS with the strategy "low cost" that began in the previous edition (2009). This strategy is to achieve minimize the costs of participation for exhibitors and visitors avoiding exorbitant additional costs that exist in other fairs. The philosophy of "low cost" is to charge the cost price of all necessary services and take advantage of economies of scale over a hundred exhibitors and five thousand visitors allowed. The low cost of a trade exhibition delivers a better quality and greater numbers of visitors.

To 8 weeks for exhibitor application deadline we can say EXPOSOLIDOS 2012 already surpassed the figures of the previous edition with more than one hundred exhibitors representing more than three hundred fifty brands, among which is the most influential at internationally companies of every technological sector.

The fair is aimed exclusively at professionals from a wide range of industrial sectors: food processing, metallurgy, agriculture, chemical, pharmaceutical, shipping, mining, construction, cosmetics, plastics, paints, environment and pollution, among others.
