

EXPOSOLIDOS Exhibition for Technology and Processing of Solids, will hold its seventh edition in February 2015 in La Farga exhibition grounds of L' Hospitalet de Llobregat (Barcelona).

With a new daily schedule: from 09 am to 6 pm.

EXPOSOLIDOS, International trade Fair for the Technology and Processing of Solids (www.exposolidos.com), will hold its seventh edition the next 17 , 18 and 19 February 2015 at La Farga, L' Hospitalet de Llobregat (Barcelona, Spain), venue since EXPOSOLIDOS first edition. It is a monographic and exclusive fair for professionals looking for effective technological solutions on the handling and processing of solids.

EXPOSOLIDOS 2015 will bring together over a hundred exhibitors from over 15 countries . They will present the latest developments in equipment, systems, services and auxiliary products in order to show the best in the processing technology of solid, semisolid and solid-liquid separation.

The event is directed exclusively to professionals in a wide range of industrial sectors: food, metallurgy, agriculture, chemical, pharmaceutical, shipping, mining, construction, cosmetics, plastics, paints, ceramic, wood, and environmental pollution, among others. It is estimated more than 4,500 professionals visitors from over 15 countries, mainly from Spain, Latin America, France , Portugal and the Magreb .

EXPOSOLIDOS 2015 has an Organizing Committee with leading technological companies of the sector. His re-elected President , Mr. Manel Ros, CEO of Metalurgica Ros, says that *“EXPOSOLIDOS is the main meeting point for the sector in Southern Europe, an event where professionals visit it by having specific requirements associated with the handling and processing of solid , semi - solid and solid-liquid separation . They come to find the best solutions for their production needs because in EXPOSOLIDOS can find the latest technology in pneumatic and mechanical processing of solids to prevent abrasion and wear in pipes and hoppers process, to instrumentation, safety and ATEX and other systems and services related to process plants in several industries, covering all needs related to solid and powdery materials”*.

EXPOSOLIDOS 2015, as strategic meeting point of the sector, have closed agreements with dozens of major industry agents from 22 countries. Furthermore will be organized different and interesting technical seminars and workshops.
